Hamzta

Software Engineer Specializing in Node.js and React

Dynamic and self-motivated software engineer with a robust background in both frontend and backend technologies. I have honed my skills through a combination of self-study and rigorous skill-based courses, successfully delivering multiple projects and earning certifications in web development. Currently serving as a Frontend Developer at 5star Inn Company, I am dedicated to crafting user-friendly interfaces and responsive websites that enhance user experience. I am eager to leverage my expertise in a new full stack developer role, aiming to contribute to innovative web development initiatives. Passionate about excelling in the programming industry, I thrive in collaborative, dynamic environments and look forward to tackling challenging projects with a skilled team.

Work Experience

Frontend developer intern

Zuri Hng

November 2024 to December 2024

- Gained hands-on experience in frontend development by contributing to web projects using HTML, CSS, JavaScript, and React.
- Created responsive, visually appealing interfaces under the guidance of senior developers.
- Learned the importance of clean code and efficient problem-solving, laying a solid foundation for my frontend development career.

Frontend Development Role

ByteAnalytics-Lagos

June 2024 to September 2024

- Developed and maintained responsive web applications using Nextjs.
- Collaborated with the design team to ensure seamless user experiences.
- Improved website performance and usability through efficient code practices.

Frontend developer

5star inn company-Ogun state

December 2022 to September 2024

- Designed and developed user-friendly, responsive web applications using JavaScript, React, Next.js, Tailwind CSS, Bootstrap, and CSS.
- Collaborated with cross-functional teams to create visually appealing, interactive interfaces.
- Implemented best practices in frontend development for optimal performance and usability.
- Translated designer mockups into pixel-perfect websites, enhancing user experience.

Full Stack Developer

Isolution media-Lagos

March 2024 to May 2024

- Designed and implemented the dashboard UI for the RenewCap platform.
- Worked with cross-functional teams to develop responsive, interactive interfaces.
- Converted mockups into pixel-perfect, user-friendly websites.

- Enhanced app market reach and usability through strategic insights.
- Participated in API development and integration using Node.js and Express for the web Administrative dashboard and bubbles mobile app.

Frontend Developer

BitSaac Inn-Lagos

December 2022 to March 2024

- Developed and maintained responsive web applications using Nextjs.
- Collaborated with the design team to ensure seamless user experiences.
- Improved website performance and usability through efficient code practices.
